OPCUG Anti-Virus Measure

Due to a reduction in member services as a result of the COVID-19 pandemic, all membership fees due by March 31, 2020 have been automatically extended until further notice. We thank members for their patience & understanding.

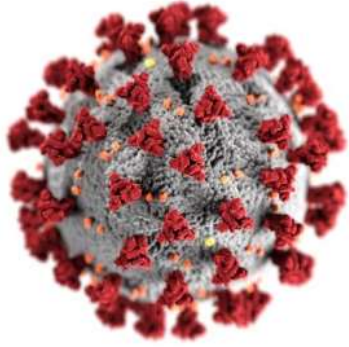

Task – Use a version of this virus graphic for a road-safety newsletter by making it into a “traffic sign”

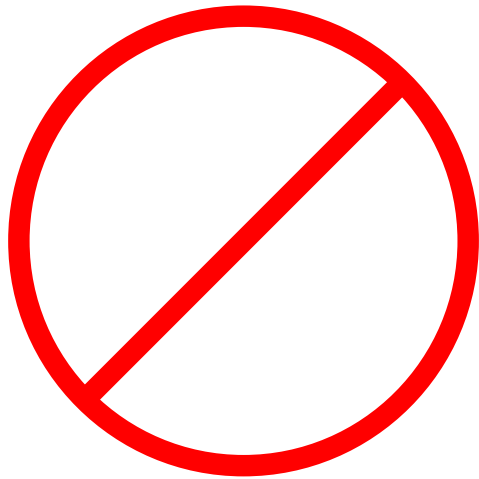

Coronavirus Disease 2019: What Effect Could it Have on Road Safety in Canada?

Abstract

In March 2020, the World Health Organization declared COVID-19 a world-wide pandemic and one result has been a major economic downturn. This downturn should reduce road collisions. However, research suggests economic downturns differentially affect driver behaviours. Using an interactionist model we consider some potential positive and negative COVID-19 effects on traffic safety.
