How Does OneDrive Work?

- Do you use OneDrive?
- What files and folders are involved?
- Can you explain how OneDrive synchronizes files between your PC and the cloud?
- What features do you find useful?
- Can you provide a share at Q&A to educate the rest of us?

SuggestionBox@opcug.ca

Microsoft OneDrive Desktop App

Examining The Basics

What is Microsoft OneDrive?

According to Microsoft, OneDrive is the Microsoft cloud service that connects you to all your files.

OneDrive allows you to:

- i) store and protect your files,
- ii) share them with others, and
- iii) access them from anywhere on any device.

What is Microsoft OneDrive?

All files that you store in OneDrive are private unless you decide to share them. You can share files and folders with co-workers or, if you're signed-in to Microsoft 365, you may even be able to share with partners outside of your organization.

Two flavours – several plans

Microsoft OneDrive comes in two flavours:

Home or Business

Each flavour offers different plans:

Microsoft 365 Family, Microsoft 365 Personal, Microsoft 365 Basic
& **Microsoft 365 Free**

Today's

App Settings Control Other Behaviour

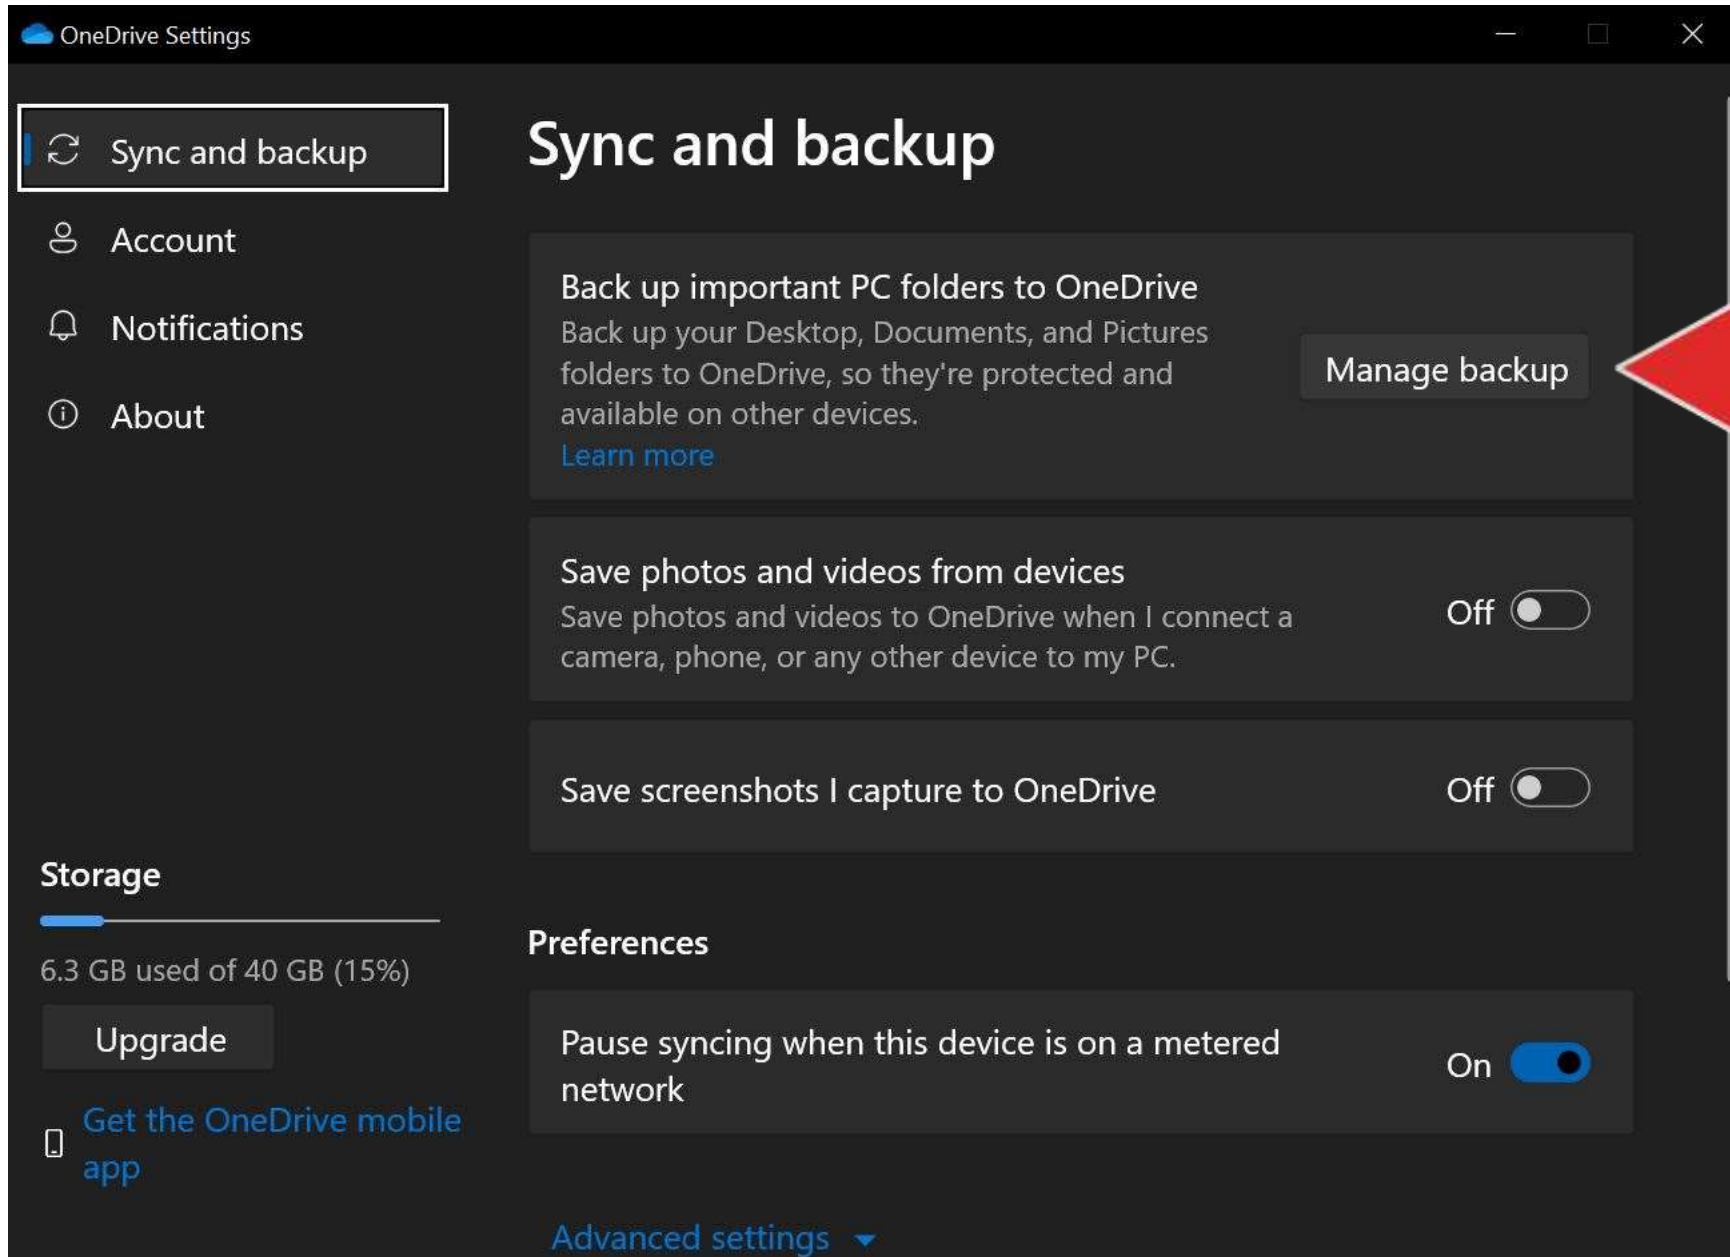

Left click on OneDrive Sys tray Icon

App Settings Control Other Behaviour

Left click “Settings gear icon”, then left click on “Settings” to access additional OneDrive settings.

Sync and backup : Manage backup

The screenshot shows the OneDrive Settings application window. The title bar reads "OneDrive Settings". On the left is a sidebar with navigation options: "Sync and backup" (highlighted with a white border), "Account", "Notifications", and "About". The main content area is titled "Sync and backup". It contains three sections: 1. "Back up important PC folders to OneDrive" with a description "Back up your Desktop, Documents, and Pictures folders to OneDrive, so they're protected and available on other devices." and a "Manage backup" button. A large red arrow points to this button. 2. "Save photos and videos from devices" with a description "Save photos and videos to OneDrive when I connect a camera, phone, or any other device to my PC." and an "Off" toggle switch. 3. "Save screenshots I capture to OneDrive" with an "Off" toggle switch. At the bottom left, under the "Storage" section, it shows "6.3 GB used of 40 GB (15%)" and an "Upgrade" button. Below that is a link "Get the OneDrive mobile app". At the bottom right, under the "Preferences" section, is "Pause syncing when this device is on a metered network" with an "On" toggle switch. A link "Advanced settings" with a dropdown arrow is at the very bottom.

Sync and backup : Manage backup

The image shows a screenshot of the OneDrive Settings application window. The window has a dark theme and a sidebar on the left with navigation options: 'Sync and backup' (highlighted with a white border), 'Account', 'Notifications', and 'About'. The main content area is titled 'Sync and backup' and contains three sections: 1. 'Back up important PC folders to OneDrive' with a description and a 'Manage backup' button. 2. 'Save photos and videos from devices' with a description and an 'Off' toggle switch. 3. 'Save screenshots I capture to OneDrive' with an 'Off' toggle switch. Two large red arrows point to the right, highlighting the 'Save photos and videos from devices' and 'Save screenshots I capture to OneDrive' sections. At the bottom left, there is a 'Storage' section showing '6.3 GB used of 40 GB (15%)' and an 'Upgrade' button. At the bottom right, there is a 'Preferences' section with a toggle for 'Pause syncing when this device is on a metered network' which is currently 'On'. A link for 'Advanced settings' is at the bottom center.

Sync and backup : Advanced settings

Sync and backup : Advanced settings

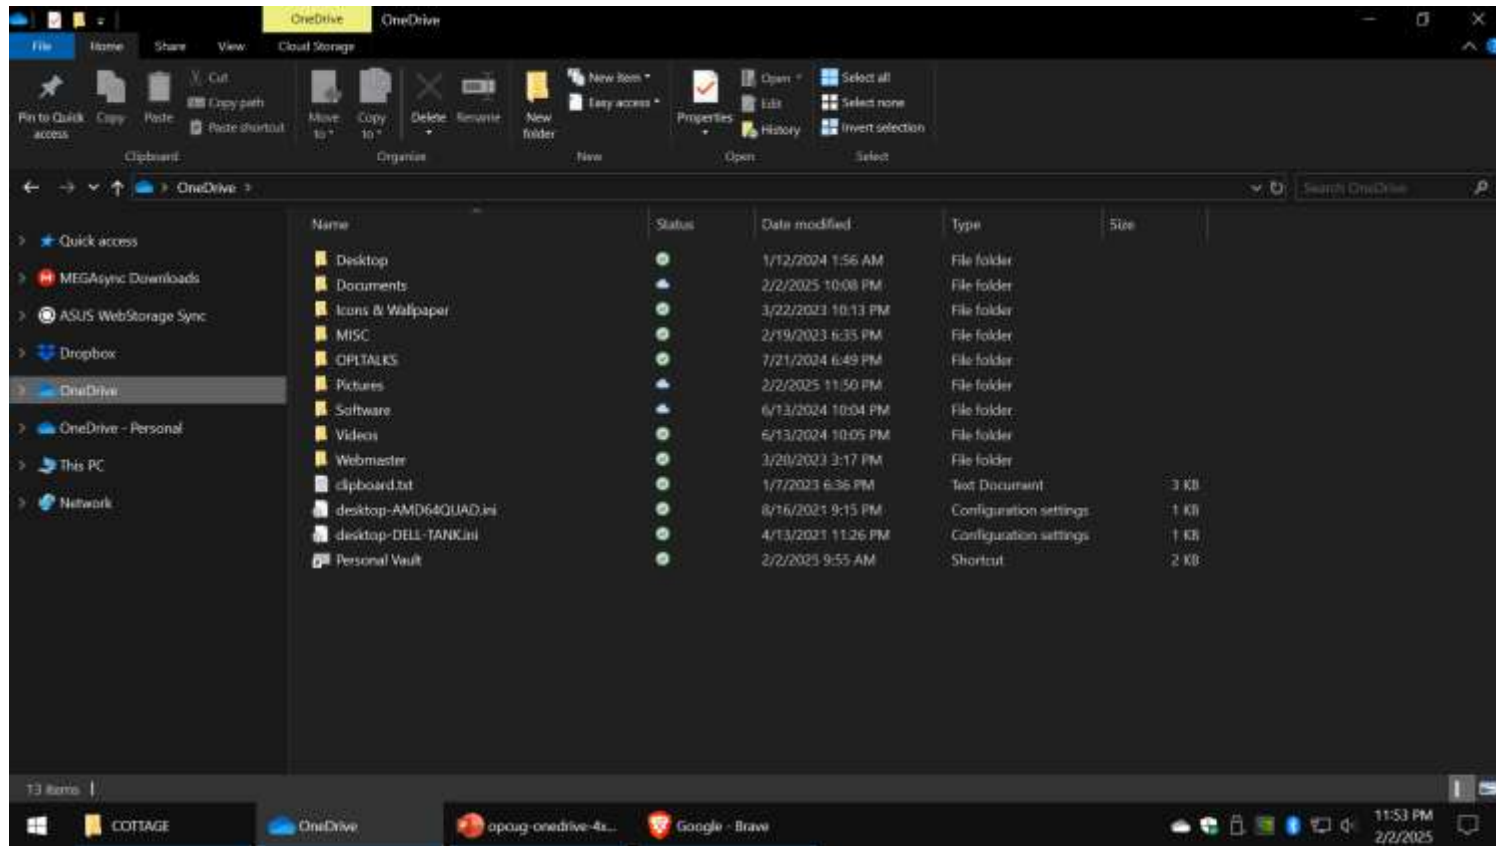

The screenshot shows the OneDrive Settings application window. The left sidebar contains navigation options: 'Sync and backup' (selected), 'Account', 'Notifications', and 'About'. The main content area is titled 'Advanced settings' and includes the following sections:

- Limit download rate:** A toggle switch set to 'Off'.
- Limit upload rate:** A toggle switch set to 'Off'.
- Excluded file extensions:** A section with a text box stating 'Excluded items won't get backed up to OneDrive, but cloud items will still sync to this computer' and an 'Exclude' button.
- Files On-Demand:** A section with a link 'Learn more about Files On-Demand' and a text box explaining that OneDrive downloads cloud files to the PC the first time they are opened. Below this text are two buttons: 'Free up disk space' and 'Download all files'.

At the bottom left, there is a 'Storage' section showing a progress bar for '6.3 GB used of 40 GB (15%)', an 'Upgrade' button, and a link to 'Get the OneDrive mobile app'.

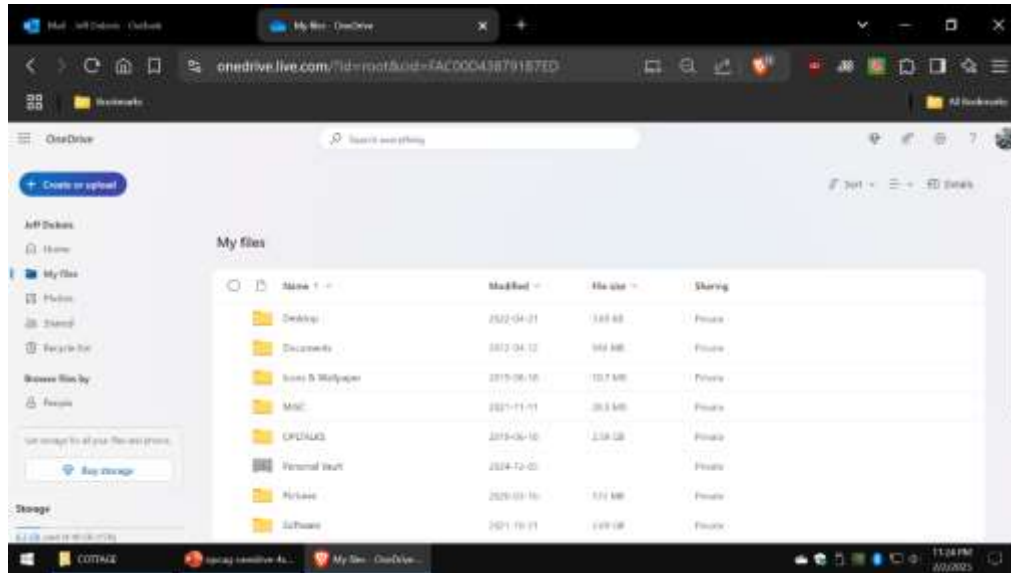

Four red arrows are overlaid on the right side of the image, pointing to the 'Limit download rate', 'Limit upload rate', 'Exclude' button, and the 'Download all files' button.

Your individual needs will dictate how you choose to access OneDrive

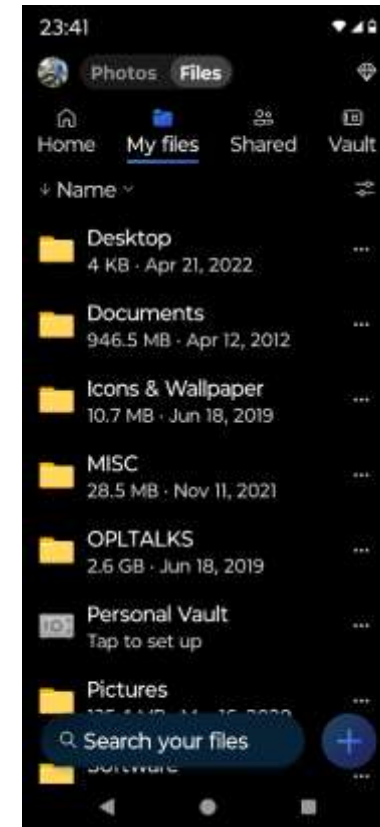

I rarely have a need to access OneDrive via a browser. I have the OneDrive app installed on 2 desktops and 2 laptops and the mobile app on a tablet and phone. Most of my OneDrive access is done via the Windows file manager.

Other ways to access OneDrive

You can access OneDrive from any computer using a web browser by logging into your Microsoft account and simply launching the web-based OneDrive app (as opposed to the desktop application).

Or you can access OneDrive from your mobile device through the OneDrive mobile app.

Documenting Data Backup

Documenting data backup is critical because it ensures clarity on backup procedures, responsibilities, storage locations, and recovery methods, allowing for efficient data restoration.

Data Files and Backup Locations				
Description	GB	Live Data	Backup #1	Backup #2
Synology Cloud Sync is used for Google Drive, C2 Object Storage, Backblaze B2				
Synology NAS (DS220+)				
- Harv files	2.75	NAS	Google Drive	C2 Object
- PCI files	1.25	NAS	"	"
- PCI Client Archive	5.00	NAS	Backblaze B2	My Passport
Email - Microsoft 365 Outlook File Folder				
- PCInnovation (PST) **	0.17	NAS	Google Drive	C2 Object
- Hotmail (OST)	0.03	NAS	"	"

Shop Canadian on Amazon

Loonie Links

- Would you like to find out what you can get through Amazon that is a Canadian product?
- Well, as reported by iPhone in Canada, you now can!
- Amazon has created a shop Canadian storefront page just for these interesting times

<https://www.iphoneincanada.ca/2025/02/07/amazons-made-in-canada-storefront-is-here-to-shop-local/>

- And, if you scroll to the bottom of the page, there is even an Amazon shop Quebec storefront!

(I shall restrain myself from commenting further...)

Patching apps

- Some programs/vendors don't have auto-updating

Do you have WinRAR installed? There's a good chance your PC is vulnerable

 By [Chris Hoffman](#) November 3, 2023

WinRAR has a massive security hole that's still being actively exploited, and it's one of many Windows applications that do not auto-update. The developer boasts of more than 500 million WinRAR installations around the world,

WinRAR Is Under Attack—and Doesn't Update Itself

The flaw in file-archiving program WinRAR means an attacker can execute whatever code they like on your PC if you download and open a specially crafted ZIP archive.

Attackers have been exploiting the bug since early 2023. WinRAR developer RARLAB released an update that fixed the flaw in August

Here's the problem: WinRAR doesn't automatically update itself. It doesn't even check for updates and notify users that critical security updates are available. Many people have an old, out-of-date version of WinRAR and will never install this patch.

Patching 3rd party apps

- Many vendors include
 - manual update (normally from the Help menu)
 - fully automated update
 - e.g. most browsers have fully automated updates notice in top-right to restart the browser to apply update
- If they have an update ability, use it
- For other programs
 - Glarysoft Software Update
